We are so excited about the upcoming summer and the new offerings we have for you can hardly wait!

In This Issue

Tennis Expanded at UMW

Academics Has New Offerings

ACT Prep Added

American Studies for International Students

Afternoons = More Choices!!

Tennis Expanded at UMW

We have expanded our tennis camp to 4 weeks at the **University of Mary Washington** to meet the increased demand. Mary Washington's head men's and women's coaches, Todd Helbling and Patrick Catullo, will again be leading the camp.

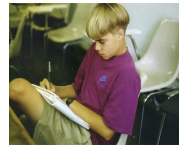

Academics Has New Offerings

Academic campers can now choose from an even greater assortment of courses. New additions for our **Senior High** students include: Political Science, Architecture and "College Survivor". **Junior High** students will now have Government, Journalism and Study Skills to round out their new course selections. We are also excited about the addition of **Cinematography** to our afternoon Fine Arts Workshops.

ACT Prep Added

In addition to the very popular SAT Prep course we are now offering the ACT Prep course. Both courses have been specially designed for us by **The Princeton Review**, THE name in standardized testing and preparatory training. They will also be taught by The Princeton Review's instructors.

American Studies for International Students

We have tweaked (and renamed) our successful ESL program by combining classroom work with real-world experiences. Not only will you receive the same level of English language and American History instruction, but you'll also venture out of the classroom on many excursions to local historical sites for an even broader view of America's roots and culture.

Afternoons = More Choices!!

Our afternoon activity choices for Academics students has been expanded to include **Soccer**, **Personal Fitness** and **SCUBA Certification**.
